

DRUJBA GLASSWORKS S.A. AT SEEF 2006

DRUJBA GLASSWORKS S.A. participated in the Southeast Europe Economic Forum (SEEF), held in Sofia - Bulgaria, between the 31st of October and the 1st of November 2006.

SEEF is an annual international forum which gathers outstanding politicians and business executives

from all over the world to discuss the economic trends as well as challenges of the region.

The Discussion Panel "Bulgaria, Greece, Cyprus - the Common European Future" was hosted by the Hellenic Business Council in Bulgaria and held under the auspices of the Hellenic Embassy.

Mr. Nick Georgopoulos, in his capacity of Country Manager, presented the various aspects of YIOULA's progress in Bulgaria, which have turned the decision to invest into a success story, and DRUJBA GLASSWORKS S.A. into a leading industrial company.

EXPO DRINK 2006 - BUCHAREST, ROMANIA

Stiram S.A. participated once again at the **ExpoDrink International Exhibition** that took place between the **19th and the 22nd of October** at the **Romexpo Centre** of Bucharest.

The event represents the **most important Romanian Exhibition**, that once more brought together **food and drink manufacturers**, packagers, and their **suppliers**.

This year's **Expo Drink** (celebrating its **10th anniversary**), achieved **record-high exhibitor** number (they surpassed the **100**, representing **10 different countries**).

Stiram's participation was highly **appreciated** and commented upon, by both organizers, visitors and clients, for its overall **presentation** and wide **product range offering**.

SAILING AWAY WITH BRAVO COFFEE

A world-map, a compass, and a magnificent **sailboat** will help us **drift away**, into a fantastic trip of **excitement, adventure** and relaxation, our **Greek coffee** on hand....

SARA LEE creatively invented the

trip, and **YIOULA GLASSWORKS** dutifully **materialized** it, printing the trip "**components**" onto its water tumblers of pleasurable 28cl capacity. **Dedicated to coffee lovers** who appreciate delight and imagination, as well as we do!

NEW MACHINES PUT INTO OPERATION IN NEW GLASS S.A.

In **December 2006**, two new automatic glass-tableware **producing machines** were introduced in our **NEW GLASS** factory: an **18 Section Press and Blow (P&B)**, and a **12 Section Press and Press (P&P)**.

NEW GLASS S.A. is one of the newest companies of the **Group**, the only one **exclusively** dedicated to the

production of Tableware Products.

(professional / catering, household / retail and promotional / advertising).

Aiming at unremitting **improvement**, the **C o m p a n y** constantly **invests** in new **procedures** and **technologies** that will **enhance** its **products** and **services** in all its **markets** of **operation**

NEW FOOD JAR FOR RIGONI

YIOULA GLASSWORKS, in exclusive co-operation with Italian-based **TECHNO VETRO COMMERCIALE**, produced a new, polygonal-shaped **jar of 309 cc capacity**.

The new **product** is intended for use by **RIGONI**. The award winning **Italian Food Company; RIGONI**, an all-organic food producer and trader will be **utilizing** the new jar for its **jams** and **pickled vegetables**.

WORLD FOOD UKRAINE 2006 KIEV, UKRAINE

The 9th consecutive organization of World Food Ukraine 2006 focused on the massive potential of the country's ever-growing food and drink market. From its conception, the event has been expanding in size, exhibitor numbers, as well as international participation.

The 2006 trade fair held between October 31st and November 3rd welcomed the presence of both our Ukrainian Companies: **Bucha Glassworks** (based in the Bucha Region of Kiev), and **Biomedsklo** (based in Zhitomir), that showcased their products in the same stand, and under the common name "Yioula Group Ukraine".

The overall participation - which was mostly aimed at creating awareness of the Group's existence and production capabilities in the region - was received with enthusiasm and positive reactions by all parties involved.

CONTINUOUS IMPROVEMENT FOR YIOULA S.A.

YIOULA GLASSWORKS S.A., striving for continuous improvement, good practice and customer satisfaction, decided to adopt and implement the **ISO 22000 HACCP** (Hazard Analysis & Critical Control Point). The HACCP plan will be fully put into practice within the first semester of 2007.

Hazard Analysis & Critical Control Point is an internationally

recognized and recommended approach to food safety that anticipates and prevents hazards associated with ingredients. It relies on the identification of Critical Control Points (CCP's) in food production and preparation processes. All CCPs are - in turn - closely monitored in order to ensure that food is safe for consumption.

A POETIC NEW YEAR

A VRA Mineral Water continues with its HAIKU poetic tradition. Two new (Japanese-style) poems celebrated the Christmas Season and the New Year.

The two new bottles, of 100cl capacity, were materialized by Yioula in Athens. A metallic silver full-body sleeve, adorned by a branch of holly and a ripe pomegranate, "dressed-up" the bottle and conveyed wishes of prosperity and fortune for the New Year.

SIGNIFICANT NEW RELATIONSHIPS FOR NEW GLASS S.A.

NEW GLASS recently "entered" the Serbian advertising market, through its cooperation with **IMLEK**, the largest dairy manufacturer of the country. The conic-shaped tumblers of - 28cl capacity - were produced and printed by **NEW GLASS** and bore **IMLEK's** logos and colors. They are intended to promote the latter's milk and yogurt brands.

NEW GLASS also enjoys quite a presence in the Bulgarian promotional market. Recently, **SIS INDUSTRIES** (a leader in alcohol production and bottling in Bulgaria, boasting more than 40 different kinds of alcoholic drinks) acquired a series

of advertising tumblers from **NEW GLASS**. The tumblers, bearing brand logos, are intended to be used for the promotional purposes of **SIS**.

Also Spanish-Bulgarian **KFM**, a leader in meat processing, commissioned **NEW GLASS** to produce and print a shot that will be used for a promotional activity in a super market chain.
